

Application No. : 10/749,325  
Filed : December 29, 2003

REMARKS

Claims 1, 3 – 11, 13, 15 – 24, 29, and 33 – 42 were pending in the application. By this paper, Applicant has amended Claims 1, 13, 36, 37, 41 and 42, canceled Claims 10 – 11 and 22-24 without prejudice, and added new Claims 43-56. Accordingly, Claims 1, 3 – 9, 13, 15 – 21, 29, and 33 – 56 are presented for examination herein.

*Request-for-Continued Examination (RCE)*

Applicant submits concurrently herewith an RCE for continued prosecution of the above-identified application.

*Related Cases*

Applicant notes that it has contemporaneously filed herewith a divisional application (serial number unknown; filed November 11, 2008) claiming priority to the present application.

*Allowed and Allowable Subject Matter*

Per the Office Action, Claims 29 and 33 – 42 stand allowed by the Examiner.

*§112 Rejections*

Per page 2 of the Office Action, Claims 1 and 13 each stand rejected under 35 U.S.C. §112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which the Applicant regards as their invention.

By this paper, Applicant has amended Claims 1 and 13 to further clarify the described relationship (i.e., only on four out of every five TX clock cycles associated with the second clock, removing the 10-bit symbol from the FIFO). See, *inter alia*, Par. [0008] for support for this amendment. Hence, no new matter has been added.

Applicant respectfully submits that the aforementioned amendments to Claims 1 and 13 render these claims, as well as each of their dependent claims, definite and clear. Accordingly, Applicant requests withdraw of the Examiner's Section 112 rejections.

20 Applicant notes that any claim cancellations or additions made herein are made solely for the purposes of more clearly and particularly describing and claiming the invention, and not for purposes of overcoming art or for patentability. The Examiner should infer no (i) adoption of a position with respect to patentability, (ii) change in the Applicant's position with respect to any claim or subject matter of the invention, or (iii) acquiescence in any way to any position taken by the Examiner, based on such cancellations or additions.

Furthermore, any remarks made with respect to a given claim or claims are limited solely to such claim or claims.
